## MARTINS and his family: a playful style for spaces

We put our whole soul into our products, filling them with stories. So we can contribute to happy spaces. That's why MARTINS and his family are full of personality and humor.

MARTINS drawer chest is like siamese twins: they are similar, but one is hungrier and has always open mouth, allowing to store the bigger items. NANDOS is a tall wardrobe that recovers the traditional piece to hang clothes. Its slender form interprets the human relationship with the objects. NEL and MARIA are a couple of bedside tables. They explore the gender issue, so the lampshades represent the women's and men's straw hats, typical of the Portuguese region of Baixo Minho. Their handles accentuate the humorist intention: Maria speaks too much and Nel is amazed with her speech. MÁRIO is a bedside table without lamp, completing the whole family. Inside the drawers of these pieces are surprise elements: they are lined with wallpaper with illustrations of the characters' belongings such as a mirror, a notebook, a soap, underwear and socks. MARTINS, NANDOS, NEL, MARIA and MÁRIO are simple and timeless. They can be in different colors and are suitable for all ages and different types of spaces.

With happy pieces, happy spaces, so happier people!
