

## Cortina - Playing with light as a delicate curtain

Let the heat, the light and the nature come into your life! Close your eyes and imagine a piece of land floating in the air at your room. There you have.

Recently, DAM launched the Cortina pendant lamp. Cortina is a pendant lamp which plays with light as a delicate curtain. The shape is casted from a block cork which evokes a piece of land levitating. The metal sheet with its reflecting surfaces valorizes the light and form a perfect contrast with the warm aspect of the natural cork. So, Cortina values the light, the land and the nature, transposing the outside garden to indoors.

The lamp integrates LED lighting that lasts for a lifetime, being durable and sustainable. It provides direct light which make it perfect for offices, bars, restaurants, over a desk or a dining table. Due to its main material, it also helps reduce the environmental noise, given the material's sound absorbing properties.
