Solid ash, oak or walnut (structure) and twisted rope in lakeshore bulrush (seat).

Finishings

Colourless matt varnish (wood structure).

Custom

Arranged with the client.

Description

Inspired by architecture, Alice is a light and elegant chair. The two hind legs are gossipers, they are turned on themselves so they can talk. The twist of the backrest is formed from this dialogue which ensures comfort – their stories. Alice is stackable and its version with a woven rush seat recovers the weaving technique used by many artisans in the past in Portugal. Woven by hand, the seat is developed in a traditional pattern that makes the chair resistant and comfortable. Being ideal for many spaces, Alice knows how to receive with nobility in the fine Portuguese way.

MATERIALS

VEGETABLE CORD

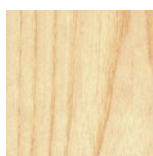

Twisted vegetable cord made of lakeshore bulrush. It comes from the herbaceous plant (*Schoenoplectus lacustris*) of the reed family, found in several wet and swampy places in mainland Portugal and other countries. It is a plant fiber of spontaneous growth and does not require any type of care before the harvest.

Fibre rush
Natural

SOLID ASH

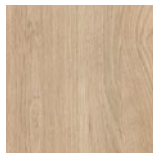

European solid ash, that comes from forests controlled through a process covered by the FSC Certification. This wood can last a lifetime but it need maintenance and care. It is finished with colourless or coloured matt varnish that has a special uv protection that prevents discoloration, and also forms a water repellent layer.
